

High Back Day Chairs

High Back A height adjustable, high back orthopaedic chair with padded armrests and vinyl upholstery. A must-have for those recovering from hip operations.

Euro Chair A high back orthopaedic chair with depth adjustability and small wheels on the rear legs to help move the chair around.

Air Cushioned High backed chair with the added feature of an air sack in the seat cushion, allowing for adjustable comfort.

MacQuarie Chair A popular chair as it can have its height and depth adjusted to suit individual requirements and can come in fabric upholstery for added comfort. The contoured buttoned backrest provides additional lumbar and neck support.
