# SmartFlex 3 Adjustable Bed

- Hand Controller
- 3 Speed Massage Unit
- HiLo Function

Flat / Rest / Sleep

Head Raised

Head & Feet Raised

Raised Position

- Shown at raised position.
- Head & feet move independently

***The exciting new SmartFlex 3 adjustable bed is expertly engineered and offers modern innovation with a touch of class.***

***The SmartFlex 3 bed is designed to fit into your existing bedroom environment as it is perfect for just reading, positioning yourself to watch TV, working on your laptop or creating a sleeping position that promotes a perfect rest and healthy living.***

The SmartFlex technology allows consumers to enjoy the benefits of independent head, foot and vertical lift movement which means that you can control the head of the bed separately from the foot of the bed.

Extra technology includes the "Wall Align Technology" feature and the important Zero Gravity feature which replicates the position astronaut's use during launches. This position distributes pressure evenly across the body and provides a feeling of weightlessness and calming throughout your body.

## SmartFlex 3 Benefits

- ✓ Stylish Modern Living Design
- ✓ Zero Gravity – no pressure on your body
