Modular personal care solutions for those with more complex seating and positioning needs

The Aquatec Ocean VIP Ergo and Ocean Dual VIP Ergo are modular tilt in space shower chair commodes designed to suit a wide range of individuals and their postural needs. Both models benefit from a -5° to 40° seat tilt angle, whilst the Ocean Dual VIP has an additional backrest recline of 0° to 35° for those with more complex seating and positioning requirements.

Highly customisable

As with all Ocean Ergo models, the VIP and Dual VIP can be tailored to each individual by making some simple adjustments or by adding some easy to fit, off the shelf accessories. Furthermore, their ergonomic design ensures ease of use for the carer whilst providing optimum safety and comfort to the user.

NEW Contoured, ergonomic seat

- ▶ Based on the imprints people leave behind when seated to ensure a more upright and stable seating position.
- ▶ A 5° seat tilt to lift the knees into the natural squat position for toileting.
- ▶ Transfer supports at the front to allow the user to position themselves into a comfortable position for toileting and showering.

NEW Ergonomic tilt

- ▶ The new pivot and slide mechanism means that during tilt, the chair now moves downwards and forwards which keeps the user's centre of gravity close to that of the chair. This makes the tilt operation lighter and more intuitive for the carer, creates a smoother and more comfortable experience for the user and has reduced the overall footprint of the product without affecting its stability.

NEW

FEATURES

-5° to 40°

1
